HSE Training Dashboard

Health, Safety & Environment Compliance Management

Automated training certification tracking & expiry reminders

October 2026

The Problem

Oil & gas organizations struggle with:

- **Manual tracking** - spreadsheets, missed renewals, compliance gaps
- **No visibility** - which employees lack required training? When will it expire?
- **Regulatory risk** - audit failures, penalties, safety incidents
- **Time waste** - hours managing training records, sending reminders
- **No integration** - data scattered across systems, no single source of truth

Impact: Compliance failures, safety risks, operational inefficiency

Our Solution

HSE Training Dashboard - A modern, intuitive compliance management platform that:

📊 Real-time Compliance

See exactly which employees lack training, departments at risk, courses expiring

🔔 Smart Reminders

Auto-notify employees 15–30 days before expiry via email/SMS

📝 Easy Management

Add courses, upload certificates, assign to departments - no coding needed

🌍 Bilingual

Full Arabic & English support for Middle East operations

Core Features

✓ CSV Import

Load training records in bulk from Excel/CSV

✓ Compliance Matrix

Define which courses required per department/role

✓ KPI Dashboard

See compliance %, at-risk employees, expiry trends

✓ Certificate Gallery

Upload certificate images, add metadata, track by number

✓ Email Reminders

Auto-remind employees before training expires

✓ Data Export

Generate compliance reports as CSV/PDF for audits

Technology Stack

Frontend

React 18 + Vite
Bilingual UI (EN/AR RTL)
Responsive design

Storage

IndexedDB (browser)
Supabase (optional SaaS)
Data persists across sessions

Deployment

Vercel (free tier)
Auto-scaling, CDN included
Zero ops

Testing

Vitest (895+ tests)
100% coverage of core logic
Production-grade reliability

Current Status

✓ MVP	895	Live
Fully functional	Tests passing	Free deployment

Phase 2B Complete (Oct 2026):

- ✅ Course management (add/edit/delete)
- ✅ Certificate gallery with images/URLs
- ✅ Email reminder system (15-30 day window)
- ✅ Data persistence (IndexedDB)
- ✅ Bilingual interface

Try It Now

Full-featured demo with sample data:

```
https://hse-training-dashboard.vercel.app
```

What you can do:

- Import sample CSV training records
- Add custom courses (persists across refresh)
- Upload certificate images
- Generate compliance reports
- Switch to Arabic interface
- View expiry reminders

No login required. Data saved locally in your browser.

Business Model

Hybrid SaaS Strategy:

☁️ SaaS (Cloud)

Target: Mid-market oil & gas

$49–149/month

- Unlimited users
- Cloud backup
- Email support
- Auto-updates

🏢 Self-Hosted

Target: Enterprise

$5,000–15,000/year

- On-premise deployment
- Full data control
- Custom integration
- Dedicated support

Revenue projections: $50K ARR (Year 1), $500K+ ARR (Year 3)

Roadmap

1	2	3	4
Phase 2B (Current) Core MVP	**Phase 2C (Q4 2026) Supabase + Real Email**	**Phase 3 (Q1 2027) LDAP/SSO + Advanced Reports**	**Phase 4 (Q2 2027) Mobile App + Analytics**

Next Sprint (4 weeks): Supabase database integration, SendGrid emails, production auth

Why We Win

- **Localized:** Built for Middle East (Arabic-first, Riyadh timezone)
- **Simple:** No complex setup, no training needed
- **Affordable:** $49/month SaaS vs competitors' $200+/month
- **Flexible:** Hybrid deployment (cloud or self-hosted)
- **Fast:** 2-minute setup, instant compliance visibility
- **Proven:** 895 tests, production-ready code

> **Differentiator:** Only platform combining bilingual UI + hybrid deployment + affordable pricing for GCC market

Traction & Validation

📺 Audience

YouTube channel "HSE Mastery Hub" (@HSE.MasteryHub)
10+ years in HSE/industrial safety

🔗 Network

Direct relationships with oil & gas companies in Saudi Arabia, UAE, Kuwait

💬 Customer Interviews

5+ companies confirmed pain point: manual training tracking

📊 Market Size

1,000+ oil & gas operators in GCC @ $70K ARR each = $70M TAM

Our Ask

Seeking: $50K seed funding to accelerate growth

💰 Use of Funds

- $25K - Backend (Supabase, SendGrid)
- $15K - Sales & marketing
- $10K - Team & ops

📅 Milestones

- Q4 2026: 5 paying customers
- Q1 2027: $10K MRR
- Q2 2027: Mobile app launch

Timeline to profitability: 18 months
